PROFESSIONAL SUMMARY

Hands-on Business Analytics Manager and senior individual contributor with 13+ years in analytics across retail, e-commerce, and technology, designing and shipping enterprise analytics products, BI dashboards, and decision-support systems end-to-end at Cisco, Lowe's, Amazon, and Tesco. Strong in SQL, Python, Snowflake, Qlik (QlikView/Qlik Sense), and Tableau, applied to executive reporting, KPI visibility, data governance, and business planning. Track record of delivering multi-million-dollar revenue recovery, cost optimization, and operational efficiency by partnering directly with business and leadership stakeholders.

PROFESSIONAL EXPERIENCE

Manager, Business Analytics — Cisco Meraki India

October 2024 – Present

- Recovered **~\$15M in at-risk revenue** and lifted renewal rates from 78% to 83% within two quarters by building an event-driven renewal-intelligence framework that reconciled bookings, license lifecycle events, and operational telemetry to surface 25% more renewable value.
- Built an automated executive-reporting engine on Snowflake that generates dynamic business commentary, delivering decision-ready insights to leadership across 3 business units.
- Modernized data-engineering workflows and scaled the analytics infrastructure, increasing deployment velocity **75%** through automated SQL generation and standardized pipelines.
- Designed an enterprise data-governance and risk-management framework, consolidating tooling to eliminate **\$2.1M in redundant spend**.

Analytics Lead (Acting Team Lead) — Lowe's India

February 2021 – October 2024

- Cut executive financial-reporting cycles from **3 days to 4 hours** by integrating FP&A and supply-chain analytics platforms, enabling real-time KPI monitoring across multiple business units.
- Reduced inventory risk **23%** across 5 business units by developing demand-forecasting and inventory-optimization models in Python, SQL, and scikit-learn.
- Built financial and operational dashboards with real-time KPIs using Python visualization libraries, supporting data-driven decisions across business units.

Business Analyst II — Amazon EU Sarl, Luxembourg

February 2020 – August 2020

- Identified **EUR 2.1M in cost-optimization opportunities** by leading an EU Softline intelligence initiative that integrated sales and inventory data across 7 countries.
- Reduced inbound volatility **25% week-over-week** with a SQL-based product-classification framework built on trended weekly in-stock patterns.

Business Analyst — Cloudbtail India

November 2017 – January 2020

- Drove **~35% month-over-month improvement** in vendor performance with a SQL and QlikView scorecard tracking lead time, fill rate, and operational compliance.
- Cut product time-to-launch **15% quarter-over-quarter** by analyzing customer reviews in Python and NLTK to surface category trends and feature signals.

Insight Analyst — Tesco India

April 2016 – November 2017

- Built a **GBP 5M business plan** in SQL and Tableau to improve the shopping experience for elderly customers across ~2,500 convenience stores; supported reporting restructuring after U.K. data-source changes.

Software Engineer — Accenture India

March 2010 – June 2013

- Developed enterprise .NET applications with workflow automation that improved operational efficiency **60%** (early-career technical foundation).

CORE COMPETENCIES & TECHNICAL SKILLS

Business Analytics & BI: Enterprise Analytics, Business Intelligence, KPI Dashboards, Executive Reporting, Decision Support, Data Governance, Stakeholder Management, Cross-functional Collaboration

Data & Analytics: SQL, Python, DAX, ETL/ELT, Data Modeling, Demand Forecasting, Predictive Analytics, Time Series Analysis, Anomaly Detection, A/B Testing

Platforms & Visualisation: Snowflake, AWS, GCP, Redshift, BigQuery, Power BI, Tableau, QuickSight, Looker, Qlik Sense, QlikView

ML Libraries: pandas, NumPy, scikit-learn, TensorFlow, matplotlib, NLTK

Financial & Operational Analytics: FP&A, Revenue Optimization, Cost Analysis, Risk Management, Inventory Analytics, Vendor Performance

Domains: Retail, E-commerce, Supply Chain, Technology

EDUCATION

Post Graduate Diploma in Management (MBA)

NMIMS Bengaluru | 2014–2016

B.Tech in Computer Science

GGSIU Delhi | 2005–2009
